Indiana Philosophical Association

Minutes - 1/29/44

The Executive Committee called a meeting of the Association in Indianapolis on Saturday, January 29, at the Indiana University Extension Center. The meeting was to be devoted to the discussion of topics proposed to us by the Commission on the Function of Philosophy in Liberal Education.

Professor Hildebrand, acting for the Association, had made preparations for the meeting over a period of several months. In December he attended the regional meeting of the Commission on the Function of Philosophy in Liberal Education held in Chicago. While there he made arrangements with Professor Counsel, Chairman of the regional meeting and Secretary of the Commission, to integrate the work of our Association with that of the Commission.

The following program was proposed:

9:30--12:00 Indiana University Extension Center

9:30--10:30 Report on the regional meeting of the Commission on the Function of Philosophy in Liberal Education. Professor Hildebrand and Reverend Ward.

10:30--12:00 Discussion of the topics proposed by the Commission. See attached.

12:00--1:00 Luncheon at the Athenaeum

1:00--4:00 Indiana University Extension Center. Continuation of discussion and preliminary formulation of a report to the Commission.

Only six members notified the Secretary that they planned to attend. The meeting was cancelled and these members were notified by telegram or telephone. Other members were notified by postcard.
